

## Drury School BYOB Device Requirements

### Recommended Specifications

- *Wireless capable*
- *Processing capacity to enable creation and manipulation of text and data- minimum 2GB of RAM*
- *Screen size large enough for viewing the creation and manipulation of text and data. Approximately 10" screen or higher*
- *A keyboard for typing*
- *Relatively light but still robust enough for school use*
- *Long battery capacity (4+ hours)*
- *We advise one of the more popular devices associated with Microsoft, especially the latest Windows 10 devices.*
- *Warranty, insurance and up to date antivirus software*
- *We will not allow the use of smartphones*
- *Chromebooks and iPads are fine to use, but they do not offer the same capability as a Windows 10 device*
